Find Care

Find the best health care options the same way you check out your choices in hotels or restaurants. "Know before you go." It's a smart idea before you make any important decision, including finding a new doctor or choosing a location for surgery.

BlueChoice® HealthPlan of South Carolina makes these decisions easy with our Find Care tool at **www.BlueChoiceSC.com/FindCare**:

• Find health care providers and services within our vast provider network.

• Check out cost information to make sure you're getting the care you need at the best possible price.

• See reviews from other patients who have rated a provider you're considering.

• Identify the highest-quality providers in your area with Total Care and Blue Distinction® Specialty Care designations.

• View a detailed map to help you get where you need to go.

After you've registered for My Health Toolkit®

Access Find Care from your computer:

1) Visit **www.BlueChoiceSC.com** and sign in to My Health Toolkit.

2) Select **Resources**, and then choose **Find Care**.

3) We'll walk you through each step!

Or take it with you:

1) Log in to the My Health Toolkit app from your mobile device.

2) Select the **Find Care** icon from the homepage.
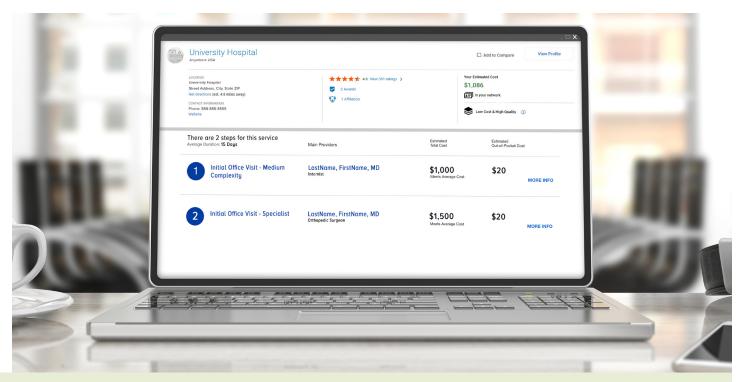

How Much Will It Cost?

Costs for a medical procedure — like an ultrasound, a checkup, X-rays or joint replacement — can vary by hundreds of dollars. The **Procedure Costs** section includes cost estimates to help you find the right care at the right price.

Estimate your out-of-pocket expenses for medical procedures — and compare pricing details that show you the most cost-efficient providers:

1) At **www.BlueChoiceSC.com**, you'll log in to your **My Health Toolkit** account.

2) My Health Toolkit app users: Select the **Find Care** icon from the homepage. Desktop users: Under **Resources**, select **Find Care**.

3) Select **Find an in-network provider**.

As you explore the **Find Care** categories further, you'll see a **Procedure Costs** tab that's loaded with price information about hundreds of procedures, from mammograms and MRIs to allergy testing, sleep studies, physical therapy and various types of surgery.

TIP: When you get your member ID card, use your ID number to create your My Health Toolkit account. Then you'll see cost information about copays and other details specific to your health plan.

Focus on life. Focus on health. *Stay focused.*
