Tiered Prescription Drug Benefits

 BlueChoice offers pharmacy benefits programs that provide the highest level of clinical effectiveness and safety for the lowest net spending. Our goal is to help our members get the appropriate drugs they need at the best price. One way we do this is by developing and maintaining a covered drug list.

We continually evaluate our prescription drug formularies and drug management programs to ensure that quality and costs are managed effectively. We work with a group of independent doctors and pharmacists to evaluate our pharmacy programs and get their recommendations because every decision related to pharmacy coverage matters. We understand the gravity of those decisions. This group also approves decisions about our covered drug list, specialty drug list and drug management programs. They base their decisions on a drug’s effectiveness, safety and value.

To view the covered drug list, visit www.BlueChoiceSC.com, go to the **Member Center** and select **Choice Complete**.

Our Tiered Drug Program

BlueChoice has a tiered prescription drug plan. This program offers flexibility in drug treatments. The chart shows the drugs that are typically in each tier.

MEMBER COST	DRUG TIER	DESCRIPTION
\$0	Tier 0	These drugs are considered preventive medications under the Affordable Care Act (ACA), and we cover them at no cost to the member.
\$	Tier 1	Drugs on this tier are usually generic drugs. They will typically cost the least amount of money out of pocket.
\$\$	Tier 2	Drugs on this tier are usually preferred brand drugs. They will typically cost less than brand-name drugs.
\$\$\$	Tier 3	Drugs on this tier are usually non-preferred brand-name drugs.
\$\$\$\$	Tier 4	Drugs on this tier are usually generic specialty drugs. They typically cost more than other brand-name drugs and may have generic equivalents.
\$\$\$\$\$	Tier 5	Drugs on this tier are usually preferred brand specialty drugs that are used to treat complex conditions. They are typically expensive.
\$\$\$\$\$\$	Tier 6	Drugs on this tier are usually non-preferred brand specialty drugs that are used to treat complex medical conditions. They are typically the most expensive drugs available.

All-Inclusive Office Visit Copayment

All plans that have a copayment give members the convenience of an all-inclusive office visit copayment. What does that mean?

Members who visit an in-network provider will pay one copayment for all covered services performed in the doctor's office for the same date when billed by the doctor. Best of all, there are no dollar maximums!

For example, let's say a member is sick and goes to an in-network doctor. The copayment for this visit is \$25. While there, the member ends up needing lab work and an in-office X-ray. With the all-inclusive office visit copayment, the member wouldn't pay any extra for these services. The chart shows how much the member would save.

SERVICE	WITH ALL-INCLUSIVE COPAYMENT	WITHOUT ALL-INCLUSIVE COPAYMENT
Office Visit	\$25	\$25
Lab Work	\$0 (Included)	\$47
In-Office X-Ray	\$0 (Included)	\$89
Total Cost	\$25	\$161
Total Savings With All-Inclusive Copayment — \$136		

Here are a few examples of what is covered under the all-inclusive office visit copayment:

- Office charges, including surgical services or treatment of an illness, accident or injury
- Allergy and tetanus shots
- Annual physicals
- Injections (immunizations)
- Diagnostic lab and X-ray services (Other charges could apply if the provider sends the claim to a hospital for processing.)

Value-Added Benefits and Services

These benefits are nonessential and do not count toward any maximum out-of-pocket (MOOP) expenses unless otherwise indicated.

My Health Novel

Lifestyle changes and early intervention can reduce risks for chronic health conditions.

Chronic conditions such as diabetes, arthritis and depression are costly in many ways. They pose long-term medical risks and can increase health care costs by thousands of dollars a year. Taking preventive action early can reduce those risks. That's why we are offering My Health Novel.

What is My Health Novel?

It's a virtual network of resources, with optional "chapters" designed to address health concerns that can be challenging and costly: weight management, musculoskeletal issues, behavioral health, women's health and digestive health.

You can visit www.BlueChoiceSC.com/MyHealthNovel or call 866-400-8941 for more information.

My Diabetes Discount Program

It's crucial for people with diabetes to stick to their care plans. But according to our claims data, medication adherence decreases when the copayment for an insulin prescription exceeds \$15.

My Diabetes Discount Program enables members to receive insulin with a \$0 copayment when they meet the requirements listed below:

- Visit their PCP for a checkup that includes:
 - A comprehensive metabolic panel lab test¹ OR a basic metabolic panel.
 - An A1C test every six months.
 - A diabetes risk factor assessment of their feet and eyes.
- Get a flu vaccine.
- Complete approved diabetes education.²

Who Is Eligible?

Members who have Type 1 or Type 2 diabetes and are actively on insulin therapy are eligible for this program.

How It Works:

- BlueChoice will reach out to eligible members each quarter with a detailed checklist of what they need to do to start or continue receiving their \$0 copayment.
- After completing all program requirements, members will begin receiving their \$0 copayment the following quarter.
- Requirements must be maintained on an annual basis to continually receive the \$0 insulin copayment.

¹Members under the age of 18 require a fasting glucose test instead of a comprehensive metabolic panel test.

²For members under the age of 18, the parent/guardian must meet the diabetes education requirement.

With Blue Dental coverage, your employees have access to dental locations in South Carolina and nationally.

Using an In-Network Dentist

Members may have to file their own claims with an out-of-network dentist. They can get a claim form at www.BlueChoiceSC.com in the **Find a Form** section.

Locating a Dentist

To find an in-network dentist, visit www.BlueChoiceSC.com/FindCare.

Dental ID Card

When going to the dentist, members should present their dental ID card to make sure the dentist applies their benefits correctly. Their dentist can easily verify coverage by calling the Member Services number on the back of their dental ID card.

Treatment Estimates

We recommend members have their dentist submit a request for a pretreatment estimate for services that are more than \$300. The dentist can send an undated claim form and treatment plan to P.O. Box 100300, Columbia, South Carolina 29202, or fax them to 803-264-7629. We will send a pretreatment estimate to the member and their dentist that details what services their plan will cover and how much it will pay.

²Covered according to the United States Preventive Services Task Force (USPSTF), the Centers for Disease Control and Prevention (CDC), and the Health Resources and Services Administration (HRSA). It includes prostate screening (PSA). These are independent organizations that offer health information you may find helpful.

³Facility charges only. Providers may bill separately for their services.

⁴Includes post-stabilization services resulting from an emergency, and services rendered by an out-of-network provider at certain in-network facilities, subject to a limited exception where the provider satisfies advance patient notice and consent requirements.

⁵Limited to five visits per benefit period for subluxation under chiropractic care.

⁶If a drug manufacturer provides any form of direct support (cash, reimbursement, coupon, voucher, debit card, etc.) for some or all of the cost sharing on the purchase of prescription and/or specialty drugs, this amount will not be counted toward the member's annual limitation on cost sharing. The drug will still be considered a covered prescription drug.

Statement of Confidentiality

BlueChoice knows how important it is to protect the privacy of each member's confidential medical information. Here are the efforts we make to protect the privacy of our members.

Protection of Privacy

BlueChoice keeps all medical information about a member strictly confidential. BlueChoice has administrative, technical and physical safeguards in place to protect the privacy of members' personal health information. Our information systems have advanced security that limits access to personal health information to authorized personnel only. We require all staff to keep confidential any personal health information they learn in performing their jobs. Additionally, staff is required to limit requests to external entities for a member's personal health information to the minimum necessary for their intended purpose.

BlueChoice requires all physicians and other health care professionals in our provider network to maintain the confidentiality of their patients' health information, and they must guard against unauthorized or inadvertent disclosure of this confidential information. Through on-site visits, BlueChoice reviews each provider's privacy policies and methods for storing and protecting patients' medical records.

BlueChoice requires all business associates, consultants and other entities with whom we contract for clinical or administrative services to maintain such confidentiality and to have a privacy policy in place that protects against unauthorized use or disclosure of confidential information. All such entities must sign an agreement attesting to the fact that they are compliant with federal privacy regulations.

Collection, Use and Disclosure of Medical Information

BlueChoice may use and disclose medical information about your employees for the purposes of treatment, payment and health care operations. Examples of these routine activities that involve the collection, use and disclosure of health information include getting information from health care providers to determine medical necessity, processing claims, issuing Explanations of Benefits to policyholders and conducting quality improvement activities.

If there is a need to release member-identifiable information for purposes other than those approved by law for treatment, payment and health care operations, BlueChoice must first get a written authorization form signed by the member. The authorization form allows the member to specify what information BlueChoice is authorized to release, to whom it may be released and for what purpose.
