

Nonformulary and Excluded Drugs

Please use the online search tool for information on a specific drug.

Why Doesn't My Health Plan Cover Some Drugs?

Your health plan's drug coverage is based on a list of drugs called a **formulary**. The formulary is designed to ensure we cover proven medications for treating the majority of medical conditions. Some drugs are not included on the formulary because other safe, effective, less costly alternatives are available.

Newly launched products and new variations of products already on the market are **not** automatically added to your health plan's formulary. These products are reviewed by a committee of independent doctors and pharmacists who meet regularly to review and compare prescription drugs and decide whether they are clinically appropriate and cost-effective. If the committee decides that a drug is appropriate for coverage, it is added to the formulary.

What Should I Do if My Drug Isn't Covered?

Talk to your doctor to see if a covered alternative drug is a good option for treating your condition. Note that **many nonformulary brand-name drugs have covered generic alternatives**.

Of course, you and your doctor make the final decision about the medications that are right for you. If your doctor believes no alternative drug will work for your medical condition, you or your doctor can request a **formulary exception** to have a nonformulary drug covered. Just follow these steps:

Providers

To request a formulary exception, call the precertification number on the member's ID card.

Members

To request a formulary exception, call the Customer Service number on your ID card.

If an exception is approved, drug management programs may apply.

Note: Formulary exceptions can only be considered with required documentation from your health care provider.

Additionally, some drugs are fully **excluded** from coverage and are **not** eligible for formulary exception review.

What Happens if I Have a Prescription Filled for a Nonformulary or Excluded Drug?

You will be able to get your drug, but you will pay the full cost of it. The amount you pay will not count toward any deductible or out-of-pocket maximum you may have.

Which Drugs Aren't Covered?

Some drugs are either **not** part of your health plan's formulary or are excluded from coverage. There are other products that are also not covered:

- Most **over-the-counter (OTC)** medications are not covered under your health plan's prescription drug benefits.
- Some **generic drugs are excluded from coverage only when produced by certain manufacturers** but are available from alternate sources. Consult your pharmacist for more information.
- Many **bases and bulk powders that are used in compounded drugs** and compound kits are not covered under your prescription benefit coverage.
- Your health plan's pharmacy benefit may exclude **certain categories of drugs, such as those used to treat weight loss or sexual dysfunction**. Please check your plan materials for details about coverage for a specific drug category.

Non-Discrimination Statement and Foreign Language Access

We do not discriminate on the basis of race, color, national origin, disability, age, sex, gender identity, sexual orientation or health status in our health plans, when we enroll members or provide benefits.

If you or someone you're assisting is disabled and needs interpretation assistance, help is available at the contact number posted on our website or listed in the materials included with this notice (TDD: 711).

Free language interpretation support is available for those who cannot read or speak English by calling one of the appropriate numbers listed below.

If you think we have not provided these services or have discriminated in any way, you can file a grievance by emailing contact@hcrcompliance.com or by calling our Compliance area at 1-800-832-9686 or the U.S. Department of Health and Human Services, Office for Civil Rights at 1-800-368-1019 or 1-800-537-7697 (TDD).
