

## Consumer Justification Narrative

### BlueChoice HealthPlan, Inc. Rate Change (effective 1/1/2023) for Blue Option Individual Health Plans

#### **Scope and range of the rate increase:**

Depending on the plan selected, approximately 6,400 members currently enrolled in a Blue Option Individual health plan will see an adjustment to premiums effective January 1<sup>st</sup>, 2023.

#### **Financial experience of the product:**

During 2021, premiums received have likely not been sufficient to cover claims paid, administrative costs, commissions, taxes, and fees. The rate adjustment effective January 1, 2023 is intended to cover future changes in medical costs. If, in 2023, paid claims are significantly less than anticipated, rebates will be paid to Blue Option members.

#### **Changes in medical service costs:**

BlueChoice HealthPlan, Inc. will likely pay more claims in 2023 for the following reasons:

- Hospitals and doctors charging more for services.
- More individuals seeking treatment.
- Higher drug costs.
- Future uncertainty in the insurance industry due to COVID-19.

#### **Changes in benefits:**

Changes to deductibles, copayments, and out-of-pocket maximums to some Blue Option products were implemented to limit the amount of the necessary rate change without sacrificing coverage.

**Administrative costs and anticipated margins:**

Administrative costs were set based on internal corporate estimates of normal operating costs. Federally required fees also apply.

BlueChoice HealthPlan, Inc. is working hard to find ways to lower these costs through intense review of current practices.
